EXPERIENCE

NCTTA Jan. 2026 – Present
Software Engineer Remote

- Building full-stack **.NET 8**/**Azure** features for an app serving **1,000+ athletes** across **150+ universities**.
- Shipping **code-reviewed pull requests** in a multi-contributor codebase with **25+ API endpoints**.
- Built an **Add Officer** feature using **role-based access control** to manage admin permissions.

UF Table Tennis Club Jan. 2025 – Present
President Gainesville, FL

- Led club operations, navigating the team to **Nationals for the first time in 8 years**.
- Fundraised **$8,000+** in new revenue to support expanded operations and national travel.
- Hosted tournaments, attracting **100+ unique participants** and generating **180+ registrations**.

University of Florida Aug. 2025 – Dec. 2025
Peer Mentor Gainesville, FL

- Facilitated 2 weekly labs for **60+ students** in COP 3502C, providing **Python** debugging and optimization support.
- Designed **14 collaborative activities** to reinforce complex programming concepts.
- Proctored exams for **100+ students**, ensuring academic integrity and providing technical support.

PROJECTS

MathWhiz

- Awarded **3rd Place Overall** at **SwampHacks X**, a 24-hour in-person hackathon, competing against **100+ projects**.
- Engineered an **automated pipeline** using **OpenAI API** and **Manim** to convert math prompts into animated tutorials.
- Engineered a **React.js** frontend styled with **Tailwind CSS**, utilizing **Supabase** for real-time database management and the **OpenAI API** to drive the core animation logic.

Recom

- Designed a community platform in **Figma** for peer interaction, donation tracking, and decentralized elections.
- Developed the frontend with **Vue.js** and **Firebase** for real-time authentication and secure database operations.

Inkwell

- Developed a **decentralized note-taking app** on the **ICP blockchain**, ensuring tamper-proof data storage.
- Built using **React.js** for the frontend and **Motoko** for secure, high-performance backend smart contracts.

EDUCATION

University of Florida Gainesville, FL
Bachelor of Science in Computer Science Aug. 2024 – May 2028

- **Honors**: Dean's List (2024–2025)
- **Extracurriculars**: Table Tennis Team; **Coursework**: Data Structures, Algorithms, Databases

SKILLS

Languages : Python, Java, Javascript/Typescript, C#, SQL
Tools : React.js, Vue.js, Node.js, Flask, .NET, Firebase, MongoDB, Tensorflow, ICP, Figma
