EXPERIENCE

NCTTA Jan. 2026 – Present
Software Engineer Remote

- Building full-stack **.NET 8**/**Azure** features for an app serving **1,000+ athletes** across **150+ universities**.
- Shipping **code-reviewed pull requests** in a multi-contributor codebase with **25+ API endpoints**.
- Built an **Add Officer** feature using **role-based access control** to manage admin permissions.

UF Table Tennis Club Jan. 2025 – Present
President Gainesville, FL

- Led club operations, navigating the team to **Nationals for the first time in 8 years**.
- Fundraised **$8,000+** in new revenue to support expanded operations and national travel.
- Hosted tournaments, attracting **100+ unique participants** and generating **180+ registrations**.

University of Florida Aug. 2025 – Dec. 2025
Peer Mentor Gainesville, FL

- Facilitated 2 weekly labs for **60+ students** in COP 3502C, providing **Python** debugging and optimization support.
- Designed **14 collaborative activities** to reinforce complex programming concepts.
- Proctored exams for **100+ students**, ensuring academic integrity and providing technical support.

PROJECTS

Inkwell

- Developed a **decentralized note-taking app** on the **ICP blockchain**, ensuring tamper-proof data storage.
- Built using **React.js** for the frontend and **Motoko** for secure, high-performance backend smart contracts.

MathWhiz

- Awarded **3rd Place** at **SwampHacks X** for an **OpenAI/Manim**-powered pipeline that automates the conversion of math prompts into animated tutorials.
- Engineered a secure **React.js/Supabase** architecture, implementing robust **database access policies** to protect user data and ensure authorized API usage.

Recom

- Designed a community platform in **Figma** enabling peer interaction, donation tracking, and decentralized elections.
- Developed the frontend with **Vue.js** and **Firebase**, implementing **Identity and Access Management (IAM)** and server-side database rules to ensure data integrity.

EDUCATION

University of Florida Gainesville, FL
Bachelor of Science in Computer Science Aug. 2024 – May 2028

- **Honors**: Dean's List (2024–2025)
- **Extracurriculars**: Table Tennis Team; **Coursework**: Data Structures, Algorithms, Databases

SKILLS

Secure Development : .NET 8, C#, Python, Flask, Node.js, React.js, Vue.js
Cloud & Identity : Azure, Firebase, Supabase (IAM), Auth0, OAuth 2.0
Security Fundamentals : OWASP Top 10, Network Security, Cryptography Basics
